FRONT END PROJECTS

Portfolio Site, single-page react-app

March 2022

- Created a react app from scratch utilizing React.js (useState hooks, react icons), CSS3, SwiperJS, EmailJS and styled-components
- Accomplished modern animation through styled-components library, direct-form submission through EmailJS

Personal Blog, headless CMS blog-app

February 2022

- Leveraged React.js, Next.js, Tailwind CSS, GraphQL and GraphCMS to deploy a fully responsive modern blog-app
- Utilized GraphQL querying language to create schemas/models to retrieve fully functional posts, categories, comments, etc.
- Applied Tailwind CSS design framework and react.js and next.js best practices

Travel Site, single-page app

January 2022

- Leveraged Git, Node.js, NPM, JavaScript, ES6, webpack, Netlify, and BEM to create a seamless, modern web app
- Instilled mobile-first performance (Lazy Loading, resolution toggles) and enhanced CSS techniques (BEM & PostCSS)
- Set up Netlify cloud function architecture for a secret client area

WORK & PROFESSIONAL EXPERIENCE

KCC, LLC

New York, NY

Data Analyst – Business Development, Corporate Restructuring

July 2018 – September 2021

- Supported Business Development Team via presentable financial data on potential clients from multiple reliable sources
- Leveraged Bloomberg API and SEC JSON data to construct a proprietary department-wide database of potential business clients
- Used excel VBA to execute python script that updated key fields in excel; created automated report-generation features in the database
- Specialized in analyzing credit agreements for current clients and for potential clients during ad-hoc research requests
- Built Salesforce workflow for 30+ member team to display and export data used by department CFO

Invesco Ltd.

New York, NY

Investment Analyst – ETFs and UITs

July 2017 – July 2018

- Supported portfolio managers and traders to design, file and market equity unit investment trusts
- Utilized quantitative models to macroeconomic factor-based approaches to stock selection (e.g., sector, dividend, value, inflation)
- Completed over \$100,000,000 in equity-focused ETF and UIT public offerings on the Invesco platform

Alpha Capital Holdings, Inc.

New York, NY

Investment Banking Intern

March 2016 – June 2017
